

# Step Into Your Digital Future

## Introducing Vyve Business Services' Fiber Access Network (FAN)

Work smarter, not harder. As a business owner, you've probably heard of **digital transformation** - leveraging new technologies to improve how you do business and revitalize your growth.

Businesses that make smart investments in digitization see better results.

The key to unlocking the benefits of fast, reliable, and secure business services is **fiber optic networks**. Vyve Business Services' Fiber Access Network (FAN) is your gateway to a digital future of innovation and endless growth.

## Vyve Business Services FAN Benefits

### New, Future-Proofed Fiber

Vyve's FAN is a part of over \$200 million of private capital that we have invested in bringing new, high-speed fiber to 25 new markets. We are a technology partner that can scale easily to meet your growing bandwidth needs.

### Business Boosting Connectivity

Our FAN is your gateway to an extensive range of voice, video and IT managed services that include business continuity, cyber-security, and productivity solutions like Microsoft Office 365.

### Unleash the Power of Fiber

From networking and storage solutions like the Cloud and SD-WAN, Vyve's network has the capacity to manage the proliferation of bandwidth hungry IoT applications allowing you the freedom to work smarter, faster, and better than ever.

### Connectivity Across America

When you join our FAN, you're connected to other businesses and service providers across 16 states from the west to the east coast of the USA. Our fiber helps businesses move forward into a new age of opportunity.

### Vyve Means Business - Right. Now.

Our services are built for businesses of all sizes and provides you with fast, property-wide, instant-on Internet access, powered by a state-of-the-art network - all available right now.

### Monitoring and Customer-Oriented Support

Enjoy peace of mind with 24x7x365 monitoring via our Network Operations Center. We can manage as much or as little of your network as you prefer.

**High speed fiber Internet is more than just a service.**  
It's your future. In today's world, speed is everything.
